The Westfield Aerorace Club Racer is engineered and designed to use the 2.0L Ford Zetec 16V engine mated to a Ford Type-9 5-speed gearbox. Manik Technologies can only supply the Aerorace Club Racer as a complete off-road racecar, and there is no ability to register it for road use.

Westfield Sportscars are high performance cars and we recommend advance driving instruction. Contact us for details of courses that are available. Any reference in this brochure to High Performance or speed is not encouragement to drive at speeds in excess of legal limits or without due care and consideration for other road users. If you want to find out what you and the car can do then go to a track! Its lots of fun, and very easy to access.
