Seat & Interior Trim Color Options:

Carpet & Exterior Trim Color Options:

Note: Body color and trim color reproduction is limited by screen and printing accuracy.

The Westfield Sport is engineered and designed to use the 1.6L Ford 1600 X-FLOW, the 2.0L Ford 2000 'Pinto', the 2.0L Ford Zetec 16V, as well as the 2.0L or 2.3L Ford Duratec I4 engine. It is recommended that these engines be mated to either a Ford Type-9 5-speed gearbox, or Ford MT75 5-speed gearbox. Manik Technologies does not supply engines or gearboxes for any Westfield kits. However, we can assist you in locating the necessary parts.

Westfield Sportscars are high performance cars and we recommend advance driving instruction. Contact us for details of courses that are available. Any reference in this brochure to High Performance or speed is not encouragement to drive at speeds in excess of legal limits or without due care and consideration for other road users. If you want to find out what you and the car can do then go to a track! Its lots of fun, and very easy to access.
